

My Services

I'm Sinead, a qualified childcare professional with 20 years of experience, and I'm passionate about helping children thrive. I offer high quality, child-led and empathic care, and I look after a maximum of five children so that every child gets the personal attention they deserve.

You deal directly with me throughout: I'm not an agency. Before your event I get to know your family through an information form, a video call and text messages, so I understand your plans for the day and your little one's likes and dislikes, and everything runs as smoothly as possible. I can also send a short video introducing myself, so I'm a familiar face before we meet on the day.

My services can take place on the wedding day itself, in the run-up, or the day(s) after, so you can fully relax and enjoy such a special time.

You can read more about me on my website: www.thepopupweddingcreche.fr

Wedding Nanny

This is a one to one service where I will attend the wedding dedicated to your little one. I am there to care for, play with and meet their needs as well as enabling your child to participate in attending photoshoots and facilitating special jobs such as being a ring bearer. I will blend in like a guest and allow for those special family moments whilst constantly being there to support, care and ensure your child's safety, especially important if there happens to be a pool. I will personally liaise with you and/or your wedding planner to ensure smooth running of your special day.

Wedding Crèche

This is the option I provide for groups of between 2 and 5 children. The crèche is a fun-filled day in which I set up a playspace filled with beautiful and enchanting games and activities to delight the little ones of those attending your wedding. The crèche must take place in a self-contained room, with easy bathroom access, that is for sole use of the crèche throughout the agreed hours. A sign-in/ sign-out system allows children to be brought to and from the crèche to fit with your plan for the day, such as to be part of the wedding party or to attend a meal. It is a great space for children to have their needs met during a typically adult event, allowing the adults to relax and fully enjoy your special day. It is popular to have meals brought to the crèche so children can eat with me.

Please note I do not provide childcare for large groups; I do this to ensure quality of care is consistent.

Booking

Two or three day packages are my most popular bookings, and a deposit of 50% is required to reserve your date.

Do contact me for a free, no obligation video call where we can discuss your individual childcare needs.

Peace of mind

I am safeguarding and first aid trained, fully insured and criminal record checked.

In planning for your event, I will take information from you such as allergies and additional needs to ensure that I take the best care of each child.

Holiday Nanny

Travelling with young children is exciting and such an important part of creating family bonds, memories and adventures. But we all know that family holidays and special events can also be busy and tiring, and sometimes everyone needs a little time to rest and recharge.

My childcare service is designed to support families during holidays, events and special occasions, providing individual or small-group childcare for up to 5 children, with ratios adapted according to the children's ages and needs. Please note that the minimum booking is for 2 days and the maximum is for 7 days.

I can provide childcare close to where your holiday or event is taking place, or accompany your family throughout your trip. This gives children the opportunity to enjoy a fun-filled day at their own pace, while parents and other adults have some valuable time to relax, reconnect or simply enjoy some restorative time together.

I bring a selection of age-appropriate toys, books, games and activities, along with a wealth of knowledge and experience, so that the children in my care are engaged, happy and well looked after.

Every family is different, so I take the time to understand your individual needs and create a bespoke childcare package that works for you. Whether you need childcare for part of your holiday, support during a special event, or someone to accompany your family for the duration of your trip, we can create an arrangement that suits your plans.

Please fill in my Initial Enquiry Form so that I have the information I need to give you a quote.

I look forward to discussing how I can help you,

Sinead
